

Intra IUB Hackathon

PARTICIPANT MATERIALS

Four-Hour Final Round | Beginner-Friendly Dataset

1. How to Use This Pack

This pack contains the contracts, company-approved standards, public test questions, and missing-information cases for the final round. Use only the information in this pack when producing risk assessments.

Important

This is an educational challenge. The prototype must not claim to give legal advice. A human reviewer must make the final decision.

2. Required Output

For every review request, the system should return the following fields:

1. Contract ID and clause type
2. Risk level: Low Risk, Medium Risk, High Risk, or Not Enough Information
3. The exact contract clause used as evidence
4. The matching company standard and standard ID
5. A short explanation of the difference
6. Human Review: Required

3. Meaning of the Risk Labels

Label	Simple Meaning
Low Risk	The clause matches the company standard or gives equal or better protection.
Medium Risk	The clause differs from the standard and needs human review, but the issue is limited or may be negotiable.
High Risk	The clause clearly conflicts with the standard or creates a major business, privacy, ownership, or legal risk.
Not Enough Information	The required clause or supporting information is missing. The system must not guess.

4. Company-Approved Clause Standards

The following standards belong to Northstar Solutions Ltd. They are the only approved standards for this challenge. **(System must support at least three of the following clause types)**

ID	Category	Approved Standard
STD-PAY-01	Payment	The company should pay undisputed invoices within 30 calendar days after receiving a correct invoice and accepting the related work or service. The company may hold disputed amounts until the issue is resolved. Any late fee must not be more than 1% per month.

ID	Category	Approved Standard
STD-TERM-01	Termination	Either party should be able to end the agreement for convenience by giving 30 days' written notice. For a normal contract breach, the party in breach should receive 10 business days to fix the problem before termination. Immediate termination may be allowed for fraud, serious security incidents, or illegal activity.
STD-DP-01	Data Protection	Personal data may be used only for the agreed purpose and only when necessary. Data must be encrypted while being sent and while being stored. The company must be told about a confirmed data breach within 48 hours. New subprocessors need prior approval. Personal data must be deleted or returned within 30 days after the service ends.
STD-CONF-01	Confidentiality	Both parties must protect each other's confidential information and use it only for the agreement. Public information, information already known, and independently developed information are excluded. The duty should continue for at least three years after the agreement ends. Trade secrets remain protected while they are legally considered trade secrets.
STD-REN-01	Automatic Renewal	An automatic renewal period must not be longer than 12 months. The customer should not be required to give more than 30 days notice to stop renewal. A renewal reminder should be sent at least 45 days before the renewal date.
STD-IP-01	Intellectual Property	After payment, the customer should own custom work created specifically for the customer. The vendor keeps ownership of tools and materials created before the agreement. If the vendor's earlier materials are included in the work, the customer should receive a permanent licence to use those materials as part of the delivered work.
STD-LIAB-01	Limitation of Liability	For ordinary contract claims, total liability should normally be limited to the fees paid during the previous 12 months. The limit should not apply to fraud, gross negligence, confidentiality breaches, data protection breaches, or intellectual property infringement.

5. Sample Contract Excerpts

C-001 - BrightDesk SaaS Subscription Agreement

Parties: Northstar Solutions Ltd. and BrightDesk Software Ltd.

Clause	Contract Text
Payment	The Customer must pay each undisputed invoice within 15 calendar days after the invoice date.
Termination	Either party may terminate this Agreement for convenience by giving the other party 30 days' written notice.
Automatic Renewal	The Agreement automatically renews for another 12-month term unless the Customer gives written notice at least 60 days before the current term ends.
Limitation of Liability	BrightDesk's total liability under this Agreement will not exceed the fees paid by the Customer during the one month before the event that caused the claim.

Dataset note: This excerpt does not include a data protection clause.

C-002 - NovaStaff Professional Services Agreement

Parties: Northstar Solutions Ltd. and NovaStaff Services Ltd.

Clause	Contract Text
Payment	The Customer must pay 100% of the project fee before NovaStaff begins any work.
Termination	NovaStaff may terminate the Agreement for any reason by giving 7 days notice. The Customer may terminate only for a material breach that remains unfixed for 30 days.
Confidentiality	The Customer must protect all confidential information received from NovaStaff. NovaStaff has no confidentiality duty for information received from the Customer.
Intellectual Property	NovaStaff owns all reports, software, designs, and other work created under this Agreement. The Customer receives a non-transferable licence to use the work for six months.

Dataset note: This excerpt does not include an automatic renewal clause.

C-003 - CloudMinds Data Processing Addendum

Parties: Northstar Solutions Ltd. and CloudMinds Hosting Ltd.

Clause	Contract Text
Use of Data	CloudMinds may use personal data for providing the service and for any other internal business purpose.
Security	CloudMinds will encrypt personal data while it is being sent over public networks. Encryption of stored data is not required.
Breach Notice	CloudMinds will notify the Customer of a confirmed personal data breach within 72 hours after confirmation.
Subprocessors	CloudMinds may appoint new subprocessors without prior approval. An updated list will be published on its website.
Data Return and Deletion	CloudMinds will delete or return personal data within 90 days after the service ends.

Dataset note: All clauses in this excerpt relate to data protection.

C-004 - EventPro Partnership Agreement

Parties: Northstar Solutions Ltd. and EventPro Bangladesh Ltd.

Clause	Contract Text
Payment	Undisputed invoices are payable within 30 calendar days after receipt and acceptance of the related service.
Termination	Either party may terminate this Agreement for convenience by giving 30 days written notice.
Confidentiality	Both parties must protect the other party's confidential information and use it only for this Agreement. This duty continues for three years after the Agreement ends. Public, previously known, and independently developed information is excluded.

Dataset note: This agreement has no automatic renewal clause.

C-005 - MarketLoop Marketing Services Agreement

Parties: Northstar Solutions Ltd. and MarketLoop Agency Ltd.

Clause	Contract Text
Payment	All invoices must be paid within 7 calendar days and before the related campaign begins.
Automatic Renewal	After the first month, the Agreement renews one month at a time. Either party may stop the next renewal by giving 7 days written notice.
Termination	Either party may terminate the Agreement for convenience by giving 14 days written notice.
Intellectual Property	MarketLoop owns all campaign designs, reports, and custom materials. The Customer may use them only while this Agreement remains active.
Liability	The Customer has unlimited liability. MarketLoop's total liability is limited to one month of fees.

Dataset note: The agreement contains several clauses that differ from the company standards.

C-006 - SecureLink Vendor Agreement

Parties: Northstar Solutions Ltd. and SecureLink Systems Ltd.

Clause	Contract Text
Payment	The Customer will pay undisputed invoices within 30 calendar days after accepting the delivered work.
Termination for Breach	Either party may terminate the Agreement immediately after any breach. The party in breach does not have a right to fix the breach.
Data Protection	Personal data must be encrypted while being sent and while being stored. Confirmed breaches must be reported within 24 hours. New subprocessors require the Customer's written approval. Data must be deleted or returned within 30 days after termination.
Limitation of Liability	For ordinary claims, each party's total liability is limited to the fees paid during the previous 12 months. The limit does not apply to fraud, gross negligence, confidentiality breaches, data protection breaches, or intellectual property infringement.

Dataset note: Most clauses follow the company standards, but the termination clause needs review.

C-007 - Freelance Development Agreement

Parties: Northstar Solutions Ltd. and an Independent Developer

Clause	Contract Text
Payment	The Customer will pay 50% of the total fee before work begins and 50% after final acceptance.
Confidentiality	Both parties must protect confidential information for one year after the Agreement ends.
Intellectual Property	After full payment, the Customer owns all custom deliverables. The Developer keeps ownership of tools created before this Agreement and gives the Customer a permanent licence to use those tools within the deliverables.
Limitation of Liability	The Developer's total liability is limited to the fees paid during the previous 12 months.

Dataset note: This excerpt does not include a termination clause.

C-008 - Regional Distribution Agreement

Parties: Northstar Solutions Ltd. and Horizon Distribution Ltd.

Clause	Contract Text
Payment	The Customer must pay undisputed invoices within 30 calendar days after receipt.
Termination	Either party may terminate for convenience by giving 90 days written notice.
Automatic Renewal	The Agreement automatically renews for a further 24 months unless either party gives 90 days written notice before the current term ends.
Confidentiality	Both parties must protect the other party's confidential information for three years after the Agreement ends.

Dataset note: This excerpt does not include a limitation of liability clause.

6. Public Test Questions

Use these questions while building and testing the prototype. Judges may ask additional questions from the same dataset.

ID	Contract	Question
PQ-01	C-001	Review the automatic renewal clause. What is the risk level and why?
PQ-02	C-001	Review the payment clause against the company standard.
PQ-03	C-002	Who owns the custom work, and does this match the company standard?
PQ-04	C-003	Review the data breach notification time.
PQ-05	C-003	Does the security clause require encryption of stored data?
PQ-06	C-004	Review the termination clause.
PQ-07	C-004	Will this contract renew automatically?
PQ-08	C-005	Review the ownership of campaign materials.
PQ-09	C-006	Review the limitation of liability clause.
PQ-10	C-006	Does the termination-for-breach clause provide time to fix a normal breach?
PQ-11	C-007	Review the confidentiality period.
PQ-12	C-008	Review the automatic renewal clause.

7. Expected Clause Categories

The system should use the following category names:

- Payment
- Termination
- Data Protection
- Confidentiality
- Automatic Renewal
- Intellectual Property
- Limitation of Liability

Fairness note

Teams must support at least three categories. The organizers should announce the same three mandatory categories to every team before the timer starts. Additional categories may be treated as optional features.

8. Missing-Information Examples

These cases test whether the system can safely say that information is missing.

ID	Question	Expected Safe Behaviour
MI-01	C-004: What notice is required to stop automatic renewal?	The system should report that the contract has no automatic renewal clause and return Not Enough Information. It must not invent a notice period.
MI-02	C-007: Can either party terminate the agreement for convenience?	The system should report that the provided excerpt has no termination clause and return Not Enough Information.
MI-03	C-008: What is the total liability cap?	The system should report that no limitation of liability clause is available in the provided excerpt and return Not Enough Information.

9. Suggested Structured Output

Contract ID: C-001

Clause Type: Automatic Renewal

Risk Level: High Risk

Contract Evidence:

[Exact clause text]

Company Standard:

STD-REN-01 - [Exact standard text]

Reason:

[Short evidence-based explanation]

Human Review: Required

10. Participant Checklist

- The prototype supports at least three announced clause categories.
- Every risk result includes exact contract evidence.
- Every comparison includes the correct standard and standard ID.

- The system returns Not Enough Information when a clause is missing.
- The interface clearly shows that human review is required.
- The team can explain how the solution could be secured and scaled later.
